Foreword	8
Editorial: Public service sector as growth driver for the new robotics industry	10
I Service Robots	1
<i>I.1 Introduction</i>	<i>1</i>
<i>I.2 Service robots: definition and classification</i>	<i>2</i>
I.2.1 Preliminary definition	2
I.2.2 Classification of service robots by application areas.....	3
I.2.3 Cost-benefit-considerations in a nutshell	4
II Distribution of Service Robots	9
<i>II.1 Service robots for professional use, sales 2009 and 2010</i>	<i>9</i>
<i>II.2 Service robots for personal and domestic use; sales in 2009 and 2010</i>	<i>12</i>
<i>II.3 Projections for the period 2011-2014: Service robots for professional use</i>	<i>13</i>
<i>II.4 Projections for the period 2011-2014: Service robots for personal and domestic use</i>	<i>14</i>
<i>II.5 Service robots by region of origin</i>	<i>17</i>
III Major application areas for service robots	19
<i>III.1 Introduction</i>	<i>19</i>
<i>III.2 Service robots for professional use</i>	<i>21</i>
III.2.1 Field robotics.....	22
III.2.2 Professional cleaning.....	31
III.2.3 Inspection and maintenance systems.....	37
III.2.4 Construction and demolition	42
III.2.5 Logistic systems	48
III.2.6 Medical robotics.....	52
III.2.7 Rescue and security applications.....	58
III.2.8 Defense applications	63
III.2.9 Underwater systems	69
III.2.10 Mobile platforms in general use.....	71
III.2.11 Robot arms in general use	73
III.2.12 Public-relations and joy rides	75
<i>III.3 Service robots for personal/domestic use</i>	<i>77</i>
III.3.1 Domestic tasks	78
III.3.2 Entertainment robots, including toy robots and hobby systems	84
III.3.3 Handicap assistance.....	88
III.3.4 Automated personal transportation	91
III.3.5 Home security and surveillance	92
IV Economic Analysis of new Service Robot Applications and their Relevance for Robotics Development (EFFIROB)	115

V	MRISAR, Institute of Science, Art & Robotics	121
VI	IERA Invention and Entrepreneurship Award in Robotics and Automation 2011	125
	<i>VI.1 The NAO by ALDEBARAN Robotics</i>	<i>126</i>
	VI.1.1 Introduction	126
	VI.1.2 The Evolution of NAO	126
	VI.1.3 The NAO Platform Today	127
	VI.1.4 Examples of Current Applications for NAO	128
	VI.1.5 Examples of Application Areas Being Developed with NAO	128
	VI.1.6 ALDEBARAN Robotics' Markets	129
	VI.1.7 Competitive Landscape	130
	VI.1.8 The Future	131
VII	Case Studies of Award Winning Technology Transfers in 2011	132
	<i>VII.1 The KUKA-DLR Lightweight Robot: an Advanced Tool.....</i>	<i>133</i>
	VII.1.1 Motivation and Goals of the R&D-Effort	133
	VII.1.2 State of the Art	133
	VII.1.3 Project Approach, Stages of the Product Genesis	134
	VII.1.4 Results of Research and Development	135
	VII.1.5 Achieved Innovation and Commercial Impact	136
	VII.1.6 Cooperation between research and industry with benefit for the partners.....	139
	VII.1.7 Handling of intellectual property rights	140
	VII.1.8 References	140
	<i>VII.2 SIMone: Robotic Birth Training Simulator.....</i>	<i>141</i>
	VII.2.1 Motivation and Goals	141
	VII.2.2 State of the Art and Innovation Potential	141
	VII.2.3 Project Approach.....	142
	VII.2.4 Results of research and Development	143
	VII.2.5 Handling of Intellectual Property Rights.....	145
	VII.2.6 Cooperation between research and Industry with benefit for the Partners	145
	VII.2.7 References	145
	<i>VII.3 Fits.me shape-changing robotic mannequin</i>	<i>147</i>
	VII.3.1 Motivation and goals of the research and development effort	147
	VII.3.2 State of the Art	147
	VII.3.3 Project approach.....	148
	VII.3.4 Results of research and development	149
	VII.3.5 Achieved innovation and commercial impact	150
	VII.3.6 Handling of intellectual property rights	150
	VII.3.7 Cooperation between research and industry with benefit for the partners.....	150
	<i>VII.4 The development of the surgical robot Surgenius</i>	<i>151</i>
	VII.4.1 Goal and motivation	151
	VII.4.2 State of the art	152
	VII.4.3 Project approach.....	153
	VII.4.4 Results of research and development	153

VII.4.5	Achieved innovation and commercial impact	154
VII.4.6	Handling of intellectual property rights	154
VII.4.7	Cooperation between research and industry with benefit for the partners.....	154
VII.4.8	References	155
VIII	Robotdalen – European robotics initiative	157
<i>VIII.1</i>	<i>Robotdalen Overview</i>	<i>157</i>
VIII.1.1	New products and companies.....	157
VIII.1.2	Industrial Robotics - Flexible solutions for SME's.....	158
VIII.1.3	Field Robotics Focus on Heavy Autonomous Vehicles.....	158
VIII.1.4	Technology for Independent Life.....	160
VIII.1.5	Longer perspective including industrial/social-economic impact	161
IX	International Robotics Standardisation Activities in Non-Industrial Environments... 	162
